Jared is a registered patent attorney with an electrical engineering background and has been involved in the practice of intellectual property law for over 7 years. His current practice focuses on patent counseling, preparation, and prosecution. Jared has worked with clients in a wide variety of technology areas involving network-configuration and routing protocols, hardware virtualization, high availability, storage and backup systems, IT software, mobile-device security, automobile security, mobile-device sensors, user-input on mobile devices, Internet services, and Internet of Things.

Before entering private practice, Jared worked as a software developer programming front and back end systems for several web-based applications.
