**Experience:** Kilpatrick Townsend & Stockton LLP

---

Tony Bramian is a registered patent attorney who focuses his practice on prosecution of patent applications in the areas of electronics, semiconductors, power electronics, Integrated Circuit design and development, wireless and RF technologies, and medical devices.

Prior to joining the firm, Tony was a patent attorney at Kilpatrick Townsend & Stockton LLP where he prepared and prosecuted patents, researched and determine patentability, provided patent-related prelitigation support, and performed infringement and validity analyses.

Previously, Tony was Director of Corporate Patents at Infineon Technologies, and an Executive Director of Intellectual Property at International Rectifier Corporation where he had a proven track record in managing patent prosecution, managing complex patent litigation matters, patent portfolio monetization, and intellectual property enforcement and licensing.

Tony's technical background includes extensive semiconductor industry experience which runs the gamut from fabrication to high-speed IC design and development, power management technologies, as well as compound semiconductor technologies. Early in his career, Tony gained experience working at ST Microelectronics and at Xerox Microelectronics.

Tony is a named inventor/co-inventor on 24 patents. As an inventor himself, he understands the extreme insight it takes in order to obtain a great patent.

Tony has authored/co-authored and presented several papers at IEDM (International Electron Device Meeting) and the IEEE Electro-Chemical Society Meeting. Previously, Tony was a senior member of the IEEE.

**Corporate Experience**

- Director Corporate Patents, Infineon Technologies
- Executive Director Intellectual Property, International Rectifier Corporation
